POSITIVE OFFSET

REGULATE YOUR ENVIRONMENTAL FOOTPRINT

Choose POSITIVE OFFSET to offset your outstanding CO2 emissions through socio-environmental projects all around the world.

YOUR BENEFITS

OFFSET YOUR EMISSIONS THROUGH SUSTAINABLE PROJECTS

In partnership with PUR Projet, a recognized actor promoting sustainable agricultural practices, offset your remaining emissions through long term projects such as reforestation and social projects. They are all certified with the highest standards.

RECEIVE OFFSETTING CERTIFICATES

Receive an offsetting certificate certifying the amount of tonnes of CO2 offset thanks to your participation.

You will also receive a Contribution Certificate detailing your contribution to reforestation and agroforestry projects with local communities.

HAVE A POSITIVE IMPACT ON LOCAL COMMUNITIES

Contribute to forestry projects supported by NGOs and local associations aiming at having a positive impact on the life of local populations.

HOW DOES IT WORK?

When choosing POSITIVE OFFSET, you will receive an offsetting certificate, issued by our partner PUR Projet.

It certifies that the VERUs (Voluntary Emission Reduction Unit) have been retired from the Official Registries.

You will also receive a Contribution Certificate. They will both be delivered at the end of each quarter, for all CO2 offset during the concerned quarter.

POSITIVE OFFSET can cover both for the shipping and inland GHG emissions.
